SYSTEM UPDATE

FEBRUARY 2016

Panorama System Update

- Regional Organizations
- RHA Organizations
- Special Considerations
- Consent for Tdap and Tdap-IPV in a mass immunization event
- Client/Public Health Office Association
- Drug Program Information Network Interface

Regional Organizations (ORGs) in Panorama

There is now a consistent naming convention and list of Organizations for each of the regions.

There are the 12 standard Orgs now available for each region. WRHA has a few additional Orgs.

Not all regions may require or use all Orgs.

To see your region's Orgs, start typing the name of your region into the Organization embedded find field e.g. Southern, Winnipeg

Correctly choosing these orgs will be important for documenting non-provider recorded immunizations and the funding reports.

Examples of documentation:

- Immunization given by Eriksdale Personal Care Home staff
Provider = blank Org = *Interlake-Eastern LTC* SDL = *Eriksdale PCH*
- Immunization given by Maternity Ward staff at St. Boniface Hospital
Provider = blank Org = *Winnipeg Women's Health* SDL = *St. Boniface Hospital*
- Immunization given by Occupational Health staff at Thompson Hospital
Provider = if available Org = *Northern Occupational Health* SDL = *Thompson Gen. Hospital*

RHA ORGs in Panorama

When selecting your Regional Org, you may have noticed that there are 2 similar-looking orgs to choose from.

Choose the Org with display name ending in "Health".

- Winnipeg Health (including Churchill), Winnipeg, Manitoba
- Prairie Mountain Health, Manitoba
- Northern Health, Manitoba
- Southern Health, Southport, Manitoba
- Interlake-Eastern Health, Manitoba

Regional Orgs in Panorama
"RHA" Child Health
"RHA" Emergency
"RHA" Home Care
"RHA" IPC (Infection Prevention & Control)
"RHA" LTC (Long Term Care)
"RHA" Medical Clinic
"RHA" Mental Health
"RHA" Non-RHA Occupational
"RHA" Occupational Health
"RHA" Public Health
"RHA" Other Facilities
"RHA" Women's Health

Organization: MB Health > [Southern Health]

Type Search

Start typing the name of the Organization. Matches will begin to appear. Select the match with the keyboard or mouse.

Organization Name: Southern Health, Southport, Manitoba

Organization: Manitoba RHA > [Southern RHA]

Type Search

Start typing the name of the Organization. Matches will begin to appear. Select the match with the keyboard or mouse.

Organization Name: Southern RHA, Manitoba

Special Considerations

There was a defect in the Special Considerations page that has been fixed. Previously the Recommended Actions table was not saving. This function is now working correctly.

Add/Update Special Consideration HideAdd/Update Special Consideration

* **Organization** Southern Health - Santé Sud

* **Service Delivery Location** Southern Health SDL **SDL ID** 1000017

* **Type of Special Consideration:** Contraindication

* **Reason for Special Consideration:** Guillain-Barre syndrome developed within 0-8 weeks of previous immunization

* **Immunizing Antigen:** Influenza virus antigen

Other antigens in the group:

Effective Dates: * **From:** 2016 Feb 16 **To:** [Setting the Effective-To date for this record will also set it for other members in the same group.]
yyyy mm dd

Date Documented:

* **Source of Evidence:** Health care provider report - documented

Recommended Actions:

<input type="button" value="Delete"/>	<input style="width: 95%;" type="text"/>	<input type="button" value="Add"/>
<input type="checkbox"/>	No further immunizations with - specify	

Consent for Tdap and Tdap-IPV in mass immunization event

Special attention will be required when a mass immunization event has Tdap and Tdap-IPV as agents. When consent is granted for one agent, consent will automatically be granted for both agents. This occurs because consent is based on antigen, not agent/product. This is comparable to what happens with multiple influenza agents at mass immunization events. See Panorama System Update July 2015.

Example test clients below. Both clients are overdue for Tdap-IPV. Consent was granted for Tdap-IPV. Panorama applied consent to both agents. Immunization would be given based on forecast status and written consent.

Row Actions:		<input type="button" value="Apply Consent"/>	<input type="button" value="Update Event Status"/>	<input type="button" value="Assess and Immunize"/>					<input type="button" value="Add Clients"/>	<input type="button" value="Event Report"/>
		<input type="button" value="Apply Communication"/>	<input type="button" value="Apply Immunization"/>	<input type="button" value="Remove Clients"/>						
	Client Name ▲	DOB ▼	Gender ▼	Immunizing Agent	Forecast Status	Event Consent	Event Status	View/Update Imms		
<input checked="" type="checkbox"/>	Testing1. Tdap	2001 Jan 02	F	Tdap	Not Forecasted	Granted		Client ID 77544		
				Tdap-IPV	Overdue	Granted				
<input checked="" type="checkbox"/>	Testing3. Tdap	2001 Apr 04	F	Tdap	Not Forecasted	Granted		Client ID 77545		
				Tdap-IPV	Overdue	Granted

Client to Public Health Office Association

Clients are now associated with a Public Health Office. This association is done using the client postal code and can be viewed on the **Health Services** page under **Service Delivery Information** "preferred SDL". This allows for certain reports to be generated based on the client's public health office.

Do not change the preferred SDL in Panorama.

If you think that the preferred SDL is incorrect, please contact your Peer Supporter.

The screenshot shows the 'Health Services' page in Panorama. On the left, a navigation menu is open with 'Health Services' circled in red. On the right, the 'Health Services' page displays 'Client ID: 75894' and 'Name: Adam'. Below this, 'Phone Number: (-)' and 'Juris: MB Hi' are visible.

The screenshot shows the 'Service Delivery Location' search interface. The search criteria 'Service Delivery Location: To' is circled in red. Below the search bar, there are fields for 'Service Delivery Location Id:', 'Facility Name:', 'Address:', and 'Effective Date(s) * From: / / To: / /'. Below these fields are 'Add' and 'Clear' buttons. Below the buttons is a table with 'Row Actions: Update Delete Set Preferred'. The table has columns: 'SDL Id', 'Facility Name', 'Effective From', 'Effective To', 'Address', and 'Preferred'. The first row is circled in red, showing '3000086', 'Brandon PHO', '2016 Feb 16', and a checked 'Preferred' checkbox.

Drug Program Information Network (DPIN) Interface

The migration of data from DPIN (Pharmacy immunizations) into Panorama will be occurring within the next month and will include pharmacy dispensed immunizations from October 1, 2015 onwards. This will bring Panorama records up to date. Pharmacy administered immunizations prior to Oct. 1, 2015 are currently in Panorama.

Users can identify immunizations migrated from DPIN by the **Manitoba Pharmacies** Organization on the Immunization Detail page.

More details about Manitoba Pharmacies Immunizations to follow in the next System Update.
