

**MEMO**

**Date:** November 20, 2020

**To:** All Public Health Directors, Managers, and PHIMS Users

**From:** Kieran Savage, Solution Group Manager, Community & LTC, Digital Health, Shared Health  
Kathy Koschik, Manager, Public Health Systems, Digital Health, Shared Health

**cc:** Dr. Carol Kurbis, Medical Officer of Health, Manitoba Health, Seniors and Active Living  
Lynda Tjaden, Executive Director, Population and Public Health, Manitoba Health, Seniors and Active Living

**Re:** **New PHIMS Internet Address and Supported Web Browsers**

---

The Public Health Information Management System (PHIMS) support team has implemented a couple of changes to improve functionality and usability:

**New PHIMS URL Address**

A new internet address has been implemented for accessing PHIMS. The new address is: <https://phims.sharedhealthmb.ca>

**Please update or delete and recreate bookmarks/desktop shortcuts to use this new address**, see attached instructions. This new address uses newer hardware and software and will improve performance and reliability.

**New Supported Web Browser**

Google Chrome has been tested and can now be used as a supported browser to access PHIMS. There are now two supported browsers for using PHIMS: Google Chrome and Mozilla Firefox.
