From: Dr. Carol Kurbis, Medical Officer of Health, Manitoba Health, Seniors and Active Living
Kathy Koschik, Manager, Public Health Systems, Digital Health, Shared Health
Cornel Van Egmond, Project Manager, Digital Health, Shared Health

cc: PHIMS Operations Support Team, PHIMS Project Team

Re: **PHIMS Upgrade**

Digital Health is targeting to upgrade the PHIMS application in **March 2020**. The upgrade will make PHIMS easier to use, improve performance, and add functionality. This change will affect all users of PHIMS to varying degrees, depending on how the application is being used.

There will be future communications to inform PHIMS users when the upgrade will take place and where to find information on the changes. Information will be provided in video and written formats.
