

Immunizations: Mass Immunization Events – Congregate Settings

PHIMS – COVID-19 Mass Immunization Events (for Congregate Settings)

1. Using Mass Immunization Functionality

→ Create mass immunization event:

- ✓ Event title – Service Delivery Location and Agent
- ✓ Add Event date
- ✓ Select Event Type → **Outbreak**
- ✓ Select the Organization (the site where the vaccine is located) and Service Delivery Location
 - i. **ORG** = Regional Health Authority or Public Health Unit (site of the vaccine fridge)
 - ii. **SDL** = "xx"(Region) **Focused Immunization Team Site**
 - iii. **Select the 'Use Auto-Decrementing in this Event'**, which activates the Holding Point pick list. Add the Holding Point ("**x**" **RHA FIT Inventory**) and select HPL

Create Mass Imms Event [Return] [Save] [Reset] [Worksheet]

Mass Immunization Event

* Event Title: St. Amant COVID Clinic

Description:

* Event Date: 2021/02/16

* Status: Open

* Event type: Outbreak

[Apply] [Reset]

Community with disproportionate disease impact

Congregate living, Other

Essential Worker

Fetus or neonate affected by maternal infection

High risk behaviour

High risk environment

Occupational hazard (e.g., HCW)

Immunizations: Mass Immunization Events – Congregate Settings

***NOTE:** If an individual's immunization is recorded via the mass immunization event worksheet, but their reason for immunization does not 'match' the **Reason for Immunization** set for the mass immunization, their reason for imms should be 'updated'.

3. Add providers to mass imms event:

Event Providers **Add**

Update Delete

	Provider ID	Provider	Verification Status	Workgroup	User
<input type="radio"/>	30037	Hawryluk RN, Melody	Not Requested		
<input type="radio"/>	30299	Omega RN, Jennifer	Not Requested		

4. Add clients to the Mass immunization event:

- i. **Scroll to the Client list** - clients can be manually added – click the **Search Clients** button
