

Classroom Scenario # 11 - MASS IMMUNIZATION (Clients 30 – 40)

School Based, Known Cohort, Delayed Entry -Grade 8 Tdap & Tdap-IPV

Before going to the clinic

You schedule a grade 8 Tdap / Tdap & IPV clinic on _____ at _____ School. The school does not have Internet connectivity. You create the mass event in PHIMS with the following information:

- Name of the Clinic: _____
- Location: _____
- Immunizing Agents: Tdap & Tdap-IPV
- Consent form lists both vaccines Tdap and Tdap/IPV
- Lot # of the immunizing agents:
 - Tdap lot # _____
 - Tdap-IPV Lot # _____
- Providers Assigned: _____ and _____

Review the following class list and consents for the first nine students (Clients 31 – 39).

Student	Name	Consent Form	Comments
31.		Yes	
32.		Yes	Allergy to nuts
33.		Yes	
34.		Yes	
35.		Yes	
36.		Yes	
37.		Yes	
38.		Yes	
39.			No Consent Form
40.		Yes	

Update the client records (31 – 39) individually to reflect that they attend _____ School and are in Grade 8 for the 20___ / 20___ school year.

Search for the event and update the event to include an additional provider.

Review the consents and document them accordingly.

Add student 40 to the mass imms event and update the client record to reflect that they attend _____ School and are in Grade 8 for the 20___ /20 ___ year.

Run the forecaster and review the students forecast for Tdap and the students forecast for Tdap & IPV.

At the clinic

On arrival the PHN notes that Student #34 is absent; Student #38 is absent because he switched to _____ school last week; Student #39 does not have a signed consent.

The PHN immunizes 5 students for Tdap; 2 for Tdap & IPV and notes that Student #33 vomited after being immunized.

Student	Name	Action
31.		Received Tdap in L deltoid from Nurse A
32.		Received Tdap in L deltoid from Nurse A
33.		Received Tdap in L deltoid from Nurse B Vomited after being immunized
34.		No Immunization - Absent
35.		Received Tdap in L deltoid from Nurse A
36.		Received Tdap – IPV in L deltoid from Nurse A
37.		Received Tdap-IPV in L deltoid from Nurse B
38.		No Immunization. Absent - Moved to _____ School
39.		No Immunization because no consent
40.		Received Tdap in R deltoid from Nurse B

Back at the Office

Search for the mass immunization event

Clerk – Documents the immunizations as non-provider recorded immunizations

PHN – Documents the immunizations as provider recorded immunizations for Nurse B and asks the clerk to record Nurse A

PHN – Records note for student #33

Clerk/PHN – Record student #34 as absent on the worksheet

Scenario #11 Page 3

Instructions: Using the following chart as a guide:

Activity	QRC
<p><u>At the Office</u></p> <ol style="list-style-type: none"> 1. Log into PHIMS. 2. Search for the Mass Immunization Event and as it is not found create a new Mass Immunization Event and note the event ID#. 3. Update the Mass Immunization Event to include you as a provider. 4. Update each of the nine students in the class (Students #30 - #39 to reflect that they attend _____ School and are in <u>Grade 8</u> for the present school year. 5. Add the first nine students to the Mass Imms Event. 6. Add student #40 to the Mass Imms Event Worksheet. 7. Update the school information for student #40. 8. Review the consents and document them accordingly. 9. Run the forecaster (you need to be in the 'Mass Imms Event Setup' page the 'Schedule Forecast' button is located above the table of clients). 10. Review the forecast status of the students. Print the Mass Imms Worksheet (choose the 'Event Report' button. 	<p>Log In</p> <p>MIE Search</p> <p>MIE Agents/Providers</p> <p>Education Information</p> <p>Add School Client List to MIE Without Template</p> <p>MIE Add/Remove an Individual</p> <p>Education Information</p> <p>MIE Worksheet – Record Consent</p>
