RE: **PHIMS 4.4.9 Offpatch – Go Live Update**

The PHIMS 4.4.9 Offpatch is scheduled to go-live overnight Wednesday, March 8, 2023, and will be available for use on Thursday, March 9, 2023.

The Offpatch resolves the issue that users could not decrement the last dose in the vial for certain vaccine products. The issue was reported for Pfizer products that contain 3, 6, 9, 12 doses per vial.

There will be a decimal place in the remaining quantity, so please complete an Inventory Adjustment to fully zero-out the “0.0” quantity. The [Adjust Existing Inventory](#) guide is posted in the Inventory section of the [Self-study Library](#), available on the Pharmacy page of the PHIMS website.
